Unaudited Interim Results for the Six Months Ended 31 December 2021

Online today announces its unaudited interim results for the six months ended 31 December 2021 (the "Period").

CEO's Statement

We continue to operate in volatile times, but our Umbria project continues to move forward. Our focus for a number of years has been on Blockchain and our project with the Umbria team has progressed well. Against a backdrop where Bitcoin and Ethereum have rallied and slumped repeatedly, the Umbria project has managed to establish itself within the Blockchain infrastructure initially bridging the movement of tokens between the Ethereum and Polygon networks. After that initial development, the Umbria bridge, named Narni after the famous Roman bridge in Umbria, has expanded to enable tokens to move between Ethereum and Avalanche, Ethereum and Binance Smart Chain and Ethereum and Fantom.

This initial progress has meant that, through staking in the Narni Bridge liquidity pool, Online is accumulating unrealised income from the use of the Narni Bridge. So, for example, in December 2021, Online's stake in bridging Ethereum from the Ethereum Chain to the Polygon Chain, rose by 1.8 Ethereum and by a further 2.3 Ethereum from the bridging back from the Polygon Chain to Ethereum. Ethereum was priced at \$3,764 on 1 January 2022. These are promising developments for such an early-stage project and our Ethereum balances are continuing to grow in the initial period of the current half.

We are excited to see how the Umbria project develops as the product continues to grow in scope and becomes more known in the crypto community. We feel that in its current configuration, especially with its potential to grow across other blockchains while expanding to more tokens, that the Umbria Narni bridge has the potential to generate significant future revenue for Online.

Although the Blockchain landscape will continue to be volatile, these risks come with many opportunities for high potential rewards which we will be looking to take advantage of.

Meanwhile, ADVFN PLC is also performing well with reported revenue for the six months ended 31 December 2021 of £4.2 million, the same level as the comparable period for the six months ended 31 December 2020, and with a reported profit after tax for the period of £202,000.

As you may have seen, I have stepped down as a director of ADVFN PLC which remains an important investment of Online Blockchain PLC. It is clear that subsequent to ongoing corporate activity around ADVFN, that ADVFN will experience an accelerate pace of change which we will work hard to ensure is positive.

Notes to the interim statements

1. General information

The principal activity of Online Blockchain Plc ("the Company") and its subsidiaries (together "the Group") is that of an incubator and investor in internet and information businesses, developers, administrators and custodians of blockchains and cryptocurrencies.

The principal trading subsidiaries are Awesome Animation Limited and Online Development Inc.

The Company is a public limited company which is quoted on the AIM market of the London Stock Exchange and is incorporated in England and Wales and domiciled in the UK. The address of the registered office is Ongar Business Centre, The Gables, Fyfield Road, Ongar, Essex, CM5 0GA.

The registered number of the company is 03203042.

2. Basis of preparation

The unaudited consolidated interim financial information is for the six-month period ended 31 December 2021. The financial information does not include all the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2021, which were prepared under applicable law and International Accounting Standards (IAS) in conformity with the requirements of the Companies Act 2006 as at 30 June 2021.

The accounting policies adopted in this report are consistent with those of the annual financial statements for the year to 30 June 2021 as described in those financial statements.

The financial statements are presented in Sterling (\pounds) rounded to the nearest thousand except where specified.

Going concern

The interim financial information has been prepared on the going concern basis which assumes the Group will continue in existence for the foreseeable future. The Directors believe that trading will gradually improve over the next 12 months.

The interim financial information has not been audited nor has it been reviewed under ISRE 2410 of the Auditing Practices Board. The financial information presented does not constitute statutory accounts as defined by section 434 of the Companies Act 2006. The Group's statutory accounts for the year to 30 June 2021 have been filed with the Registrar of Companies. The auditors, Saffery Champness LLP reported on those accounts and their report was unqualified and did not contain a statement under section 498(2) or Section 498(3) of the Companies Act 2006.

Risks and uncertainties

The Group continuously assesses and monitors the key risks of the business. The risks identified in the financial statements dated 30 June 2021 have not substantially changed.

Notes to the interim statements

3. Loss per ordinary share

	Six months to 31 Dec 2021 £'000	Six months to 31 Dec 2020 £'000	Year to 30 June 2021 £'000
Profit/(Loss) from continuing operations (Loss) from discontinued operations	(430)	(76)	29 (8)
Profit/(loss) for the year attributable to equity shareholders	(430)	(76)	21
		Shares	Shares

Basic earnings per share (pence)	(3.01p)	(0.86 p)	0.18p
Diluted earnings per share (pence)	(3.05p)	(0.86 p)	0.19p

Where a loss has been recorded for the year the diluted loss per share does not differ from the basic loss per share. Where a profit has been recorded but the average share price for the year remains under the exercise price the existence of options is not normally dilutive. However, whilst the average exercise price of all outstanding options is above the average share price there are a number of options which are not. Under these circumstances those options where the exercise price is below the average share price are treated as dilutive.
